(A) 訊息　(B) 海報　(C) 按摩　(D)服務

(2) When you think of service dogs, what do you think of? In the past, service dogs were trained to lead blind people across the street. Nowadays, service dogs are becoming more popular and offering more services for people with different kinds of needs.

Today, service dogs are trained to sense their owners' blood sugar levels. They **alert** people when their blood sugar levels are too low or too high. Some dogs are trained to "hear" for the hard-of-hearing people. They alert them when there are certain sounds like doorbells. Other dogs offer **comfort** to sad people. Still other dogs are even trained to get medicine or help when people's seizure attacks. Because of our furry friends' help, people are able to live a better life.

seizure 癲癇

(A) 安慰 (B) 惹怒　(C) 訓練　(D) 察覺

(3)　Do you want to be popular on a social networking site? Here are some tips. First, before you share something, think about the questions below. Will people thank you after they see the post? Is the post important not just to you but to others? Does the post sound interesting?

Second, sharing the post at the right time is very important because people tend to check their pages at certain time. Find out the best time of a day for sharing things. Perhaps more people will see it because you share at the "right time." Another important thing to remember is not to share too often. People are easy to get bored when you keep sharing pictures of everything. Finally, tell others your **positive** feelings toward their posts. When you give **praise** to others, they are more likely to like yours.

(A) 批評　(B) 稱讚　(C) 質疑　(D) 訣竅

(4)　Dogs often help people. There is no **doubt** about it. Some dogs help blind people move around cities. Other dogs help people by keeping them safe. However, do these dogs really enjoy helping people? In a news story from *National Geographic*, people studied these dogs. They want to know the feelings of these dogs toward their jobs. The **result** is positive. The dogs don't feel sad or bad when they are doing the work, but they do like some activities more than other activities. For example, dogs like to be talked to or played with when they are helping children in a hospital. They don't like to be drawn or brushed by children that much. It is good news to know about the good feelings of our furry friends toward helping people. We would not want **them** to feel bad.
