科目	英文閱讀		年級	一	科別	機鑄汽模圖資電訊			姓名				績		
閱讀測驗: 請選出最適當的答案															
<p>When we think of insects and bugs, we usually think of them as being “dirty.” But a recent report by the United Nations say we should all eat insects. Experts believe eating bugs could be the solution to the world’s hunger problem. This is because bugs are high in vitamins and easier to produce compared to pork or beef.</p> <p>Although dining on insects might sound gross, these bugs have been eaten for thousands of years. In fact, two billion people around the world eat insects regularly, and there are about 2000 types to choose from. The most commonly eaten insects are bees, ants and beetles. They can be eaten salty, sweet, or in sandwiches. But do not worry, eating bugs will not make you sick. These tasty creatures are cleaned and washed before they are cooked.</p> <p>Even so, it is difficult to imagine a day when we will be buying barbequed spiders as a snack. What do you think about eating insects? Would you be brave enough to try honey-flavored ants or a baked cockroach?</p>															
1. What is the best title for the passage? (A) Dining on Bugs-A Solution to World Hunger and a New Food Choice. (B) Eating Bugs-A Way to Protect Humans and the Environment. (C) Catching Bugs-A Way to Help Plants and Farmers. (D) Buying Cooked Bugs-Another Choice for Vitamin Pills.															
2. Which of the following is true? (A) People have eaten insects for a few hundred years. (B) Butterflies are one of the most-eaten insects. (C) A report by the United Nations suggested everybody eat bugs. (D) People can safely eat bugs after they are cleaned and cooked.															
3. What does the word “ gross ” possibly mean in the passage? (A) Not fresh. (B) Not salty. (C) Not pleasant. (D) Not sweet.															
4. What is the meaning of the word “billion”? (A) 一百萬 (B) 十億 (C) 一兆 (D) 一億															
5. What does the word “vitamin” mean? (A) 蛋白質 (B) 維生素 (C) 維他命 (D) 纖維質															
<p>In Indonesia, there is one very special way to make coffee. People feed coffee beans to the civet, a furry, cute animal. Then, they collect the beans from the animal’s dung and use them to make coffee. Drinkers say this coffee is really smooth and delicious. It can be sold for up to US\$100 per cup, and this makes it one of the most expensive coffees in the world. A lot of coffee shops in other countries even buy civet coffee from Indonesia.</p> <p>However, there are a few problems with the civet coffee industry. Civets are often kept in very small cages. They are forced to eat large amounts of coffee beans to make more civet coffee. They are also kept</p>															
awake all day, even though they should sleep during the daytime. One animal protection organization found these animals were not healthy at all. If you see civet coffee on a café menu, it is best not to order it.															
6. What is this passage mainly about? (A) A cup. (B) A drink. (C) A country. (D) An organization.															
7. How does the author feel about civet coffee? (A) Excited. (B) Positive. (C) Not interested. (D) Negative.															
8. Which of the following about civet coffee is not true? (A) It is an animal-friendly product. (B) It costs much money. (C) It is sold to shops around the world. (D) It comes from animal waste.															
9. What does the word “civet” mean? (A) 波斯貓 (B) 麝香貓 (C) 金吉拉貓 (D) 暹羅貓															
10. What is the meaning of the word “Indonesia”? (A) 印加 (B) 印度 (C) 印尼 (D) 印地安															
<p>Astronauts at the ISS usually stay in space for about six months at a time. You may be curious about what they do in their free time up there. For astronauts, the easiest way to pass the time is looking out the window. There are a lot of amazing views to enjoy while they are up in space.</p> <p>Besides enjoying the view, astronauts can still enjoy some of their favorite hobbies while in space. These might include reading, listening to music, playing instruments, or drawing. If you check for them on YouTube, you can even find videos of astronauts playing their favorite songs. They can also watch TV shows or movies on their laptops in their free time.</p> <p>Every weekend, astronauts usually get together with their team members for a movie night. It is no surprise their favorite films are usually space-themed films or science fiction. Once a week, they also get to call their families back on Earth. When astronauts get bored, they may do fun experiments like trying to grow plants in space, or play games together. When they are floating around in a spaceship, regular games like soccer can become much more interesting!</p>															
11. What is the passage mainly about? (A) How long astronauts stay in space. (B) What astronauts can see in space. (C) What experiments astronauts like to do in space. (D) How astronauts spend their leisure time in space.															
12. Which of the following is not true? (A) To pass their time in space, astronauts may drew, read, or listen to music. (B) Astronauts often love space films more than other kinds of movies. (C) Every night, astronauts can watch a movie together. (D) Astronauts usually spend half a year in space.															

13. Why is a soccer game in space more interesting than back on Earth?
(A) Because players have to wear special suits. (B) Because players are floating while they are playing.
(C) Because the game will not have any players. (D) Because the game does not have any rules.

14. What does the word “space-themed” mean?
(A) 太空主題的 (B) 音樂主題的 (C) 電影主題的 (D) 足球主題的

15. What is the meaning of the word “laptop”?
(A) 投影機 (B) 智慧型手機 (C) 筆記型電腦 (D) 平板

Being an astronaut is actually a dangerous job. In fact, around 5% of all astronauts die on the job. This is mainly because of the dangers **involved** in taking off from Earth. For astronauts who make it, being in space for a long period of time can bring a lot of other problems to their bodies. While in space, they have to do much exercise to keep their muscles strong. But they cannot stop their bones from getting smaller. In a six-month trip, astronauts may lose about 11% of their bone mass. Therefore, it is easier for them to get injured. With little gravity, more water from the lower body can go up to astronauts’ heads. This can put pressure on their eyes and affect their **vision**. At last, being an astronaut is a difficult job and can be quite stressful, and this is also bad for the body. As you can see, astronauts are even braver than we could have imagined.

16. Which of the following terms is not used by the author to describe an astronaut’s job?
(A) Difficult. (B) Shameful. (C) Stressful. (D) Dangerous.

17. According to this passage, which part of an astronaut’s body is not affected when up in space?
(A) The muscles. (B) The eyes. (C) The lungs. (D) The bones.

18. According to this passage, which of the following statements is not true?
(A) Being an astronaut requires a person to be strong in every way. (B) Astronauts do exercises to make sure their muscle functions are normal. (C) Astronauts may break their bones more easily than people on the Earth. (D) The astronauts who died on duty lost their lives when returning to the Earth.

19. What is the meaning of the word “involved”?
(A) 有關的 (B) 無關的 (C) 中立的 (D) 受傷的

20. What does the word “vision” mean?
(A) 事例 (B) 勢力 (C) 視力 (D) 市立
