(2) When should a child start to learn to use a computer? The answer depends on 43 you ask. Some early childhood educators feel that “the earlier, the better.” They believe that in modern society, computer skills are essential for every child, just like reading and counting. 44 children should start using and playing with computers before elementary school. 45, other educators believe that computers could have a negative effect 46 the mental development of children. They say that children who play alone with a computer do not learn how to share or interact with others. Furthermore, children do not use their imagination enough 47 the computer screen shows everything. Perhaps the best way for children to use computers 48 to use them only for a short period of time each day. If a child uses a computer for only thirty minutes each day, she or he still has plenty of time to learn and play away from the computer.
