1. Throughout modern history, few writers have been as influential as Rudyard Kipling. However, in India, where he spent a good portion of his life and career, he is a controversial* figure. For example, Kipling was a known supporter of the military figure Colonel Reginald Dyer. Dyer was in command when British troops killed nearly 400 unarmed Indian civilians in April of 1919 in what was known as the Jallianwala Bagh massacre*. In spite of this tragedy, Kipling called Dyer “the man who saved India.”

There are also some contemporary* Indian writers who maintain that, although Kipling spent much time in India and much time writing about it, he didn’t understand it or its people very well. One such writer, R.K. Narayan, said that Kipling understood the animals of the jungle better than he did the Indian people. Another Indian writer, Sashi Thoroor, said that Kipling was merely a voice for English dominance* over India and its people. Still, he does remain at least somewhat of a celebrated figure in India, the country of his birth. The home he was born in, on the campus of the J.J. School of Art in Mumbai, has been turned into a museum. But it seems not all are in the mood to pay tribute to Kipling in the country he was said to love so much.
