30. I did not know _____ when Jessie burst out crying.
(A) how could I do (B) how to do (C) what could I do (D) what to do

IV. 克漏字 30%

Have you ever imagined that you can chat with a robot instead of a real person? The techniques of Artificial Intelligence (AI) (31) become mature. Many companies, such as Google, Amazon, and Apple, have created smart voice assistants that can understand what you say, search for answers to your questions, and complete some tasks (32) on your instructions. More recently, chatbots, (33) are computer programs with AI techniques on apps, have been developed in order to present useful information whenever users request it. From the perspectives of business, replacing humans (34) chatbots can save money. As a result, many companies nowadays want to develop their own chatbots. Therefore, people might lose their jobs due to the (35) of chatbots. At the same time, many new companies which build chatbots have sprung up, and this will create many new job opportunities.

Colony Collapse Disorder (CCD) is a situation that occurs when the majority of worker bees in a colony disappear and leave their queen behind. The use of pesticides is one of the main factors _(41)_ in CCD. Pesticides can do damage to the brains of worker bees. _(42)_ , bees have difficulty finding food or returning to their hives. In the end, these bees starve to death or pollute the entire hive. Reports indicate that the total number of bees worldwide has been reduced _(43)_ almost half because of pesticide use! Without bees, humans would find _(44)_ difficult to produce certain

foods, such as vegetables and meat products. Bees (45) an important role in maintaining the balance of our food chain. They truly deserve our protection.
