(背面尚有試題)

三. 閱讀 6% + 抄寫 50% (請注意大小寫,單字拼字,標點符號;錯一處扣 2 分;勿漏抄段落)

1. Thomas Edison once said, "Our greatest weakness lies in giving up. The most certain way to succeed is always to try just one more time." This great American inventor failed many times but never gave up.

Thomas Edison is probably best-known for inventing the lightbulb. At first, it looked like his idea would never come to life, but he refused to admit defeat. Even when others told him that he was wasting his time, he believed in himself. He knew that each failure brought him closer to success. He famously said, "I have not failed. I've just found 10,000 ways that won't work." After many attempts, he finally got it right and created the lightbulb—an invention that made a huge impact on the world.

Over his lifetime as an inventor, Edison received a record-breaking 1,093 patents. His inventions included the phonograph, which could record and produce sound, the telephone, the typewriter, and many more devices that have helped to shape our world. His success is a reminder of the importance of perseverance and hard work.

- ( ) (1) What's the best title for this reading? (A) Thomas Edison: A Great Inventor  
(B) Never Give Up: The Best Way to Success (C) Lightbulb: Lighting Up the Whole World (D) Being Creative Is Not Difficult
- ( ) (2) What is the function of a phonograph? (A) To make people feel warm. (B) To make water become clean. (C) To record and produce sound. (D) To take black-and-white photos.
- ( ) (3) What can we learn about Thomas Edison from this reading? (A) After many attempts, he succeeded in inventing the lightbulb in 1903. (B) When trying to invent the lightbulb, he was encouraged by many people. (C) He earned a large amount of money from the things he had invented. (D) He held the firm belief that each failure brought him closer to success.

2. Venice is a city filled with beautiful architecture, but one bridge in particular has caught the attention of countless visitors. While the bridge's detailed design is impressive, the stories behind the bridge are what people are usually most curious about.

Built in 1600, the Bridge of Sighs passes over a river and connects the New Prison to rooms in the Doge's Palace, where criminals were questioned. The bridge's name is believed to come from the idea that criminals would sigh with sadness as they passed over the bridge, as it was the last view of Venice that they would ever see. This story may have come from Lord Byron, who mentioned the bridge in a famous poem. In reality, executions were already a thing of the past by the time the bridge was built, and little could be seen from inside the bridge since it has only a few small windows.

More recently, the Bridge of Sighs has also become connected with stories of romance. According to legend, if a couple kisses under the bridge at sunset, their love will last forever. Because of this, it has become a popular spot for tourists to take romantic boat rides.

- ( ) (1) What's this reading mainly about? (A) Stories behind the Bridge of Sighs. (B) Special designs of the Bridge of Sighs. (C) Where the Bridge of Sighs is located. (D) How the Bridge of Sighs got its name.
- ( ) (2) According to this reading, where would criminals be questioned in the past? (A) Offices in the New Prison. (B) Jails in the center of Venice. (C) Right on the Bridge of Sighs. (D) Rooms in the Doge's Palace.
- ( ) (3) Which of the following statements about the Bridge of Sighs is NOT true? (A) The poet Lord Byron mentioned it in one of his famous poems. (B) If a couple kisses under it at sunset, they may break up soon. (C) Built more than four hundred years ago, it is located in Venice. (D) It's believed that criminals sighed with sadness when walking over it.
