Dear Maggie,

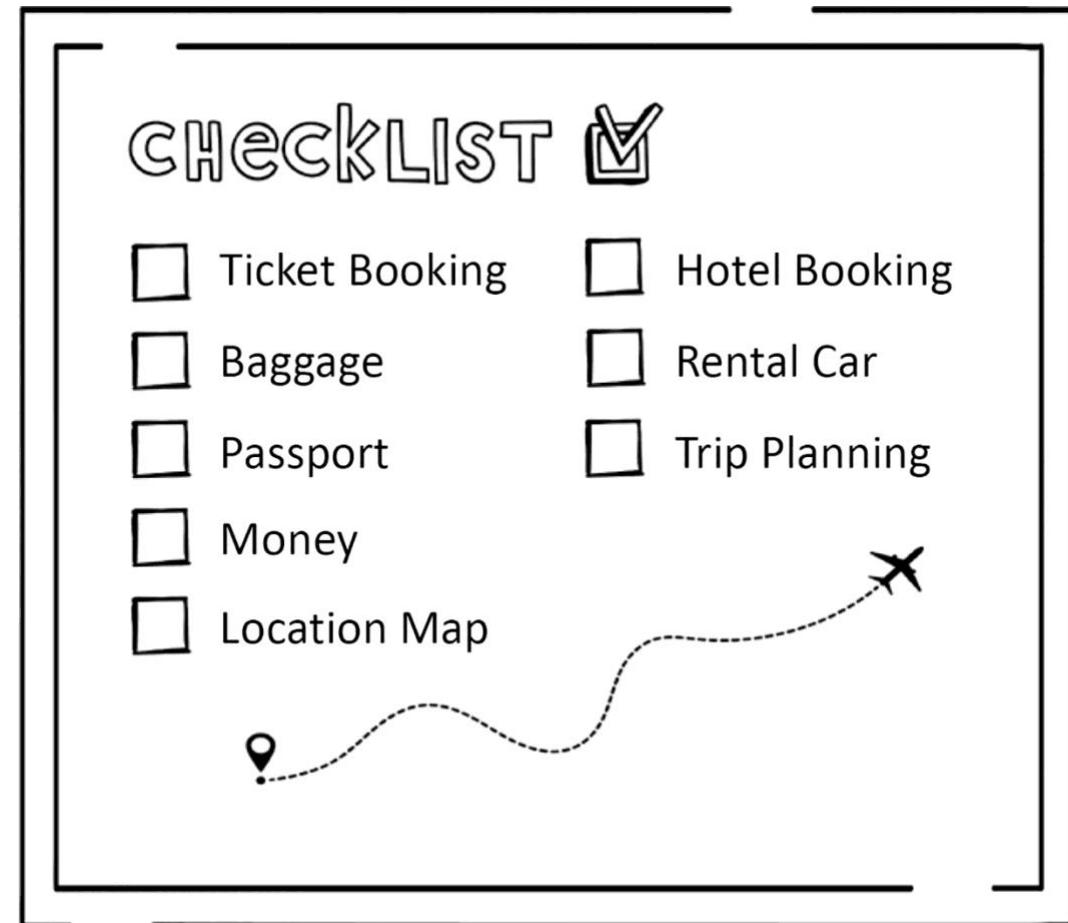

Thank you once again for booking with All Aboard!

Thank you too for your enquiry regarding the electronic ticket. Don't worry, none of these new ones show the passenger's name, so there's no need to have any concerns. There are still occasional security delays, so it's important that you and your husband arrive at the airport three hours before your flight.

Apart from this, we also have a handy travel checklist to remind you of all the travel essentials, so I've attached it as well.

Don't hesitate to contact me if there are any other questions, and have a wonderful trip!

Sincerely,
Tracy

六、閱讀測驗(4 小題)

Welcome to today's guided tour of the Taj Mahal here in Agra, India! Before we go inside, let's start with some history. First, you'll notice that we're about to enter the grounds of the Taj Mahal through the beautiful North Gate. The North Gate didn't become the main entrance by chance. The Taj Mahal was built to face the south on purpose so that during the day, the sun would always shine on the building. As you walk through the North Gate, you will lay eyes on the Taj Mahal for the first time.

Construction on the Taj Mahal began in 1632, and the main building was completed in 1648. Some people think that the Taj Mahal is a religious building. But actually, it was built as a resting place by Emperor Shah Jahan for his favorite wife, Mumtaz Mahal, after she died. This brings us to an interesting fact: the eastern and western sides of the Taj Mahal were designed to mirror each other in every way. However, there is one thing that is not the same. Under the building, exactly in the middle, lies Mumtaz Mahal. Shah Jahan himself lies to one side of her.

Now get ready, everyone. The time has come to enter the Taj Mahal!

47. () Which of the following is NOT mentioned in the speech?
 (A) The materials used in the building. (B) The function of the building.
 (C) The history of the building. (D) The design of the building.

A lazy youth, a lousy age.

少時懶惰，老來苦。
