四、綜合測驗：(每題 3 分，共 30 分)

1. A new food has hit the market. Scientists can now change animal stem cells ___(36)___ meat to be served at home or in restaurants. This new product is called lab-grown meat and has several advantages over traditional meat. First, it has no need of ___(37)___, so no animals are killed during production. It can also help ___(38)___ the environmental damage that occurs during the production of traditional meat. Lab-grown meat may even be healthier than traditional meat products.

Some, however, advise caution. While they agree that lab-grown meat may be ___(39)___ beneficial and worthy of further development, they argue that further research is needed to prove these ideas are true. Still, a number of businesses are sure that lab-grown meat will prove a ___(40)___ product in the long term. In the end, only time will tell whether consumers will welcome lab-grown meat. So stay tuned for further news on this innovative product.

- () (36) (A) with (B) over (C) by (D) into
- () (37) (A) composition (B) livestock (C) reaction (D) allergy
- () (38) (A) prevent (B) preventing (C) to be prevented (D) prevents
- () (39) (A) in conclusion (B) in theory (C) in fact (D) in practice
- () (40) (A) can't-be-missing (B) can't-missing (C) can't-miss (D) can't-be-missed

2. A special restaurant opened recently in Tel Aviv, Israel. What makes it special? Can you imagine ___(41)___ a delicious chicken meal and then walking out without paying a cent? Before you ___(42)___ to any odd ___(42)___, let me explain. The Chicken is a restaurant that serves lab-grown chicken. The Israeli government has yet to approve this revolutionary new product for legal sale. ___(43)___ the only thing you owe is your honest feedback. ___(44)___ the rather odd circumstances, customer feedback is valuable to the management as they work to perfect their menu.

Supermeat, the production center for this lab-grown meat, has its ___(45)___ and offices right next to The Chicken. As with all companies in the lab-grown meat industry, Supermeat is trying to get consumers to ___(46)___ from traditional meat to their cultured* meat. The restaurant allows its chefs to experiment with the company's ___(47)___ products and share their successes with The Chicken's diners. ___(48)___, it allows Supermeat to demonstrate to consumers how delicious their products can be.

Support ___(49)___ the lab-grown meat industry continues to increase every year. When will the Israeli government grant their approval? How much will the average consumer embrace this new product? All we can do is ___(50)___ what the future holds. Until then, however, The Chicken has a table waiting for you.

註：cultured 人工培養的
