#### 四、綜合測驗 30%

(1) Have you noticed that airplane food tastes \_\_\_\_\_? \_\_\_\_\_ you have a hard time eating it, don't blame the airline. There are some factors you must understand. \_\_\_\_\_, your tongue doesn't work the same on a plane. This is \_\_\_\_\_ the environment is so different that it can't taste well. In the same way, your nose becomes far less powerful. \_\_\_\_\_, even your ears take your attention away from your food. All these things are likely to \_\_\_\_\_ your meal taste boring.

Airlines have tried some methods to help, \_\_\_\_\_ adding more salt. Still, your meal probably won't be as \_\_\_\_\_ as it would be on the ground.

43. (A) good (B) better (C) well (D) the best

(2) It's no secret that an airplane isn't the greatest place to dine. This is \_\_\_\_\_ a number of reasons. For a start, the air pressure in the cabin is very low. This can make digestion \_\_\_\_\_ for passengers. It can also cause their ears and noses to be blocked. Finally, their tongues are also likely to not \_\_\_\_\_ like they do on the ground.

Under such conditions, food is usually far less \_\_\_\_\_. Airlines around the world, therefore, use certain tricks to beef up their inflight meals. \_\_\_\_\_, they often include foods on the menu that are very rich in flavor.

They also add more sugar, salt, and spices \_\_\_\_\_ their dishes and snacks. This ensures that mealtimes remain \_\_\_\_\_ enough for passengers, despite the negative effects mentioned above.
