

新北市立新北高級工業職業學校 114 學年度第 1 學期 第二次段考試題										班別		座號		電腦卡 作答
科目	英語文	出題 教師	吳冠宇	審題 教師	溫雅君	適用 科別	應英	適用 年級	三	姓名				是

注意事項：

- 第五大題(混合題)、第六大題(文意字彙)、第七大題(中譯英)：於答案卷(P. 6)上作答
- 第一、二張考卷(第1-4頁)：對折後再繳交給監考老師；第三張考卷(第5-6頁)：無須對折，直接繳交給監考老師
- 第5頁務必要填寫班別、座號、姓名 (任一項未填寫者，總分扣10分)

一、克漏字 (每題2.5分，共25分)

What if I told you that you could visit Rome without ever leaving the United States? Surprisingly, several towns across America share this famous name, even though the Rome in Italy is ____ 1 _____. These American Romes are far less well-known than the Italian original. Still, even if they are smaller and not nearly as ____ 2 _____ as Italy's crowded capital, they have their own charm. Many visitors are delighted to discover these tiny but ____ 3 _____ towns, each with something special to offer.

Rome, New York, is a peaceful upstate community with its main streets ____ 4 _____ with historic houses, a feature that immediately gives the town a warm and nostalgic feeling. Many travelers enjoy wandering through the crisp autumn air, taking in the bright colors of the changing leaves, a continuous experience that cannot be replaced by just glancing at them for a moment. Later, when they explore the town center, they often admire the ____ 5 _____ houses that local residents have preserved with pride. In addition, people often feel welcomed by the town's warm and friendly atmosphere.

Farther south ____ 6 _____ Rome, Georgia, a town ____ 6 _____ by beautiful forests filled with rich wildlife. The area is popular among hikers who appreciate long trails, quiet views, and the chance to reconnect with nature. Near the town center is Cave Spring, a crystal-clear-water-filled swimming spot that becomes a favorite place to cool off during hot summer days. Rome, Georgia ____ 7 _____ attracts outdoor lovers from across the state, offers a refreshing combination of natural beauty and small-town charm.

Finally, we reach Rome, Indiana, a slow-moving-river-side town located on the banks of the Ohio River. Many travelers visit for its great fishing opportunities, with many fishermen encouraged by stories shared by locals about past ____ 8 _____ catches. Families often spend long afternoons by the riverside, enjoying picnics, casting fishing lines, and relaxing in the gentle wind that drifts off the water.

Although none of these American Romes can ____ 9 _____ the ancient wonders of Italy, each has its own unique appeal. For travelers who love quiet ____ 10 _____, simple pleasures, and friendly communities, discovering these Romes in the United States may be just as enjoyable as visiting more famous destinations.

1. (A) several times the size of all of them (B) several times as small of all of them
(C) several times the size of some of them (D) several times as small as some of them
2. (A) primitive (B) customary (C) bustling (D) substantial
3. (A) lively (B) mighty (C) plain (D) antique
4. (A) lining (B) lined (C) packing (D) packed
5. (A) carefully-maintained (B) carefully-maintaining
(C) maintained-carefully (D) maintaining-carefully
6. (A) lying ; surrounding (B) lying ; surrounded (C) lies ; surrounding (D) lies ; surrounded
7. (A) ,where (B) , which (C) , for what (D) , in that
8. (A) record-breaking (B) record-broken (C) breaking-record (D) broken-record
9. (A) make for (B) make up with (C) compensate for (D) compete with
10. (A) encounters (B) settlements (C) landscapes (D) possessions

二、文意選填 (每題2.5分，共25分)

Imagine biting into a juicy burger under the bright lights of New York City, then sipping tea beside a centuries-old castle in the English countryside! The United States and the United Kingdom both dazzle travelers with iconic sights and mouthwatering flavors—but the adventures visitors have in the two countries can ____11____ like skyscrapers and stone towers. It is the contrasts, rather than the similarities, that truly highlight the charm of each place. From ____12____ cities to misty valleys, let's explore how these two nations mix beautiful landscapes, delicious dishes, and refined language into unforgettable journeys. Should you be ready, let's dive in!

The type of scenery can vary greatly between the two nations. The US boasts ____13____ parks like Yellowstone, where forests surround hot springs and wildlife roam freely, a scene which fascinates millions every year. The UK, on the other hand, offers ____14____ beauty in places like the Scottish Highlands, whose rolling hills and quiet lakes create a peaceful atmosphere. If you travel along the US coasts, you might spot a(n) ____15____ working on a ship, guiding it safely through open waters. In the UK, historic towns like Plymouth show where early ____16____ departed for the New World—a journey that changed history forever.

Food also helps ____17____ the cultures. Americans love hearty meals like burgers from Texas, where ____18____ fields spread for miles, giving the region its famous country charm. British classics, such as fish and chips eaten near the seaside, offer a cozy and nostalgic experience. American desserts, such as apple pie, are ____19____ in their sweetness, while British treats like warm scones with jam are simple yet delightful. Were you to try both, you might discover flavors you never expected to enjoy.

Language is another fascinating link between the US and the UK, both of which speak English while using different expressions for everyday things. Whether you explore the ____20____ jungles of Hawaii or the gorgeous castles of Wales, each nation offers experiences that feel familiar yet distinct. From the mighty Rocky Mountains to the lively streets of London, it is adventures like these that travelers remember most. Time to pack your bags and experience these two wonderful countries for yourself!

| (AB) differ | (AC) mountainous | (AD) differentiate | (AE) crew | (BC) dense |

三、篇章結構 (每題2.5分，共10分)

A visit to the headquarters of Eat Just, Inc., is quite an experience both for the mouth and the mind. Here, at one of San Francisco's largest food tech start-ups, you can sample nuggets* made not from the chickens we're used to seeing around the farmyard, but from lab-grown chicken meat. Touted* as a more ethical, more environmentally sustainable alternative to traditional chicken production, Eat Just's scientifically cultured products have already been approved for sale in Singapore and set to get into the global meat industry.

In addition to retaining that authentic fried chicken taste, Eat Just's lab nuggets, significantly, do not require the raising or slaughter of any actual chickens. ____21____ Thanks to this clean, "no-kill" process, conventional chicken farms and slaughterhouses—often criticized for neglecting animal welfare and ethical standards—are no longer necessary.

____22____ Until very recently, the chicken cultures also had to be grown in protein-rich fluids* obtained from the fetuses* of other animals such as calves, which did in fact require some killing. Another key argument against relying on laboratories for our meat products is the impact this will have on farm workers and farming communities. ____23____

Not surprisingly, many social scientists are of the opinion that, rather than invest substantial amounts of time and funding in meat-growing start-ups, we should instead be looking for ways to ensure that our farms are run in a more sustainable, more ethical, and more eco-friendly fashion. ____24____

Since, as they say, as the saying goes, "The chickens always come home to roost." We must all be prepared to accept the consequences of our actions, and it might thus be wise not to put all our eggs into one basket just yet.

- (A) With so many livelihoods* at stake, it would be wrong not to take into consideration the effect that large-scale animal meat production would have on human lives.
- (B) A small amount of tissue is gently taken from a live chicken, after which cells from that sample are encouraged to grow in the laboratory until they form a larger amount of edible chicken meat..
- (C) Some would add that we should, moreover, not be aiming to artificially produce more animal flesh, but rather to consume smaller, more sustainable amounts of natural, farm-grown meat.
- (D) On the downside, however, lab-grown chicken remains relatively expensive and time-consuming to produce, largely because the scientific methods used to grow the cells are still developing and require extensive specialized equipment.
- (E) Despite the growing popularity of lab-grown chicken, scientists are still working on ways to make it completely plant-based to meet the needs of vegan consumers.

四、閱讀測驗 (每題2.5分，共10分)

In Africa, there are two neighboring countries with almost the same name: the Republic of the Congo and the Democratic Republic of the Congo. Although they share borders and both sit along the Congo River, which is among the longest and most influential rivers on the continent, the two nations differ in size, culture, and history. The river supports fishing, transportation, and farming, and without it, daily life in both Congos would be far more difficult, especially for communities that rely on it for food and travel. Because of these shared geographic features, the two countries are often mentioned together, though each has its own character.

The Republic of the Congo, commonly called Congo-Brazzaville after its capital Brazzaville, is the smaller of the two. Known for its lush rainforests and wildlife, the country is home to gorillas, elephants, and many tropical birds. French is the main language, and music plays a central role in social life. It is soukous—a lively, fast-paced style—that people often dance to during celebrations, showing the importance of joy and community. While cities are developing and modernizing, villages with deep traditions continue to thrive, especially in the forest regions where people depend on nature for their daily needs.

The Democratic Republic of the Congo, or DRC, is much larger and has a far greater population. Its capital, Kinshasa, sits directly across the Congo River from Brazzaville, making the pair one of the world's closest-located capital cities. The DRC contains vast rainforests, powerful rivers, and active volcanoes. Moreover, the country is famed for rare animals such as bonobos and okapis. Although people speak many local languages, French remains widely used. Bright clothing, energetic rhythms, and strong storytelling traditions help express the rich cultural identity of the DRC.

The two Congos also share certain historical experiences. They were **colonized** by different European powers, as France controlled the Republic of the Congo and Belgium governed the DRC, and both achieved independence in 1960. Over time, they have faced political challenges of their own, yet festivals filled with music, dance, and community gatherings remain important in both societies. Artistic traditions, including ceremonial masks and contemporary paintings, are valued as cultural treasures. Even though the countries stand side by side and share similar names, their landscapes, histories, and cultural expressions reveal distinct identities, making each an important part of Africa's diverse cultural world.

25. What is the purpose of the passage?

- (A) To explain how European powers shaped Africa's borders and created modern political challenges..
- (B) To analyze the influence of the Congo River on economic growth across Central Africa.
- (C) To highlight key features of the two Congos for better insights into how they compare with each other.
- (D) To persuade travelers to choose Central Africa as their next destination by highlighting popular tourist spots.

26. What can we learn from the passage?
- (A) Although both Congos sit along the Congo River and enjoy music-filled festivals, the passage says the Republic hosts bonobos and okapis while the DRC mainly has elephants and gorillas.
 - (B) While the two Congos value community celebrations, the Republic of the Congo is described as using only French, whereas the DRC relies only on local African languages.
 - (C) Although both Congos treasure art and cultural events, the DRC is said to be the smaller and less populated country, while the Republic of the Congo is the larger one.
 - (D) While the two Congos share certain traditions, each has its own landscape, history, and cultural identity, making them clearly distinct from each other.
27. Which of the following is closest in meaning to “colonized” in the first paragraph?
- (A) Overtaken. (B) Stabilized. (C) Occupied. (D) Substantiated.
28. In what order are the following topics discussed?
- A. The history of colonization and independence
 - B. The culture and environment of the Democratic Republic of the Congo
 - C. The role of the Congo River and the basic introduction of the two Congos
 - D. The landscape, language, and traditions of the Republic of the Congo
- (A) C→D→B→A (B) B→D→C→A (C) C→B→A→D (D) B→A→D→C

五、混合題 (共12分) (注意題號順序、拼字、時態、單複數、大小寫等，全對才給分)

So-called “sister cities” have existed since shortly after the Second World War, when many nations were seeking peaceful ways to rebuild trust and cooperation. These special partnerships usually link two cities located in different countries, and the paired cities often maintain particularly friendly relations, strong economic ties, and a wide range of social and cultural exchanges. It is this combination of cooperation and goodwill that originally motivated communities to form such international partnerships, which were seen as a means of promoting peace, mutual respect, and deeper understanding among the peoples of various nations. Over time, these connections have encouraged extremely positive and healthy interactions, many of which continue to grow stronger every year.

With rapid advances in technology in recent decades, cross-country communication and collaboration have become remarkably easy, quick, and convenient. In the past, if people in different countries wished to communicate, they had to travel long distances, write letters that took weeks to arrive, or make costly international phone calls. Now, however, technology has transformed what was once difficult into something almost effortless, giving people numerous ways to reach out to others across borders. Audio calls, video chats, smartphone apps, and online platforms offer simple and affordable ways for individuals to meet, exchange ideas, work on joint projects, or even enjoy virtual celebrations with friends abroad. As a result, instant connections between individuals, businesses, schools, companies, and even governments are not only possible but common. Thanks to the Internet and a number of modern digital devices—tools that have reshaped global communication—residents of sister cities are now closer than ever before.

Although many towns today maintain more than one sister-city relationship, the purpose of such partnerships remains largely the same: to strengthen cultural understanding, build commercial cooperation, and foster peace across communities. Different countries, however, use different terms to describe these multinational agreements. In the UK, it is “twin towns” that people prefer to say, whereas many parts of Europe use expressions such as “partner towns” or “friendship towns.” These variations in wording highlight the flexibility of the concept and show how different cultures choose names that best fit their traditions.

科目	英語文	出題 教師	吳冠宇	審題 教師	溫雅君	適用 科別	應英	適用 年級	三	姓名				否

請根據選文內容，從文章中選出兩個單詞，分別填入下列句子空格，並視句型結構需要做適當的字形變化，使句子語意完整、語法正確，且符合全文文意。每格限填一個單詞 (word)。(填充題，1格2分，共4分)

Sister cities, formed to (29) _____ and foster peace and understanding, have benefited from advances in technology that make cross-country communication easier and faster. This development has helped create a more interconnected world, (30) _____ people from different cities closer together.

From (A) to (F) below, choose the **ONES** that are correct statements. (多選題，共6分)

31. _____

- (A) The term “twin towns” is used mainly in the United States.
- (B) The practice of establishing sister cities started after the Second World War.
- (C) Sister cities often engage in social, cultural, and economic exchanges.
- (D) Sister cities always share the same term for their international relationships.
- (E) Sister cities can have more than one international partnership at the same time.
- (F) Cross-country communication and collaboration became more difficult and costly after the rise of the Internet.
- (G) Sister cities rarely sought to foster peace and understanding through their partnerships after the Second World War.
- (H) Sister cities are linked mainly by their shared history rather than by their future potential for collaboration.

32. _____

Which **word** in the passage carries the meaning of “taking place through digital technology rather than in a physical place.”

(簡答題，共2分)

六、文意字彙 (每題1分，共10分) (注意題號順序、拼字、時態、單複數、大小寫等，全對才給分)

- 33. The price of essential goods such as rice and vegetables has s_____red dramatically over the past few months due to the strong typhoon that struck Hualien, one of the main areas producing agricultural products.
- 34. Wearing sunscreen with a high SPF, the acronym for *Sun Protection Factor*, can significantly reduce the p_____n of ultraviolet rays on one's skin and prevent long-term damage.
- 35. The latest movie released yesterday not only e_____ded my expectations with its creative storytelling about a journey through a fictional wonderland but also delivered a powerful message about fostering friendship and plucking up courage.
- 36. After careful i_____n into the company's financial records, the auditors discovered several irregular transactions that required sound explanations for further verification.
- 37. The voluntary rescue workers displayed their e_____l mental strength in continuing to search for survivors despite the harsh conditions and emotional strain.
- 38. Proper maintenance of i_____e, including community facilities and transportation networks, is crucial to ensuring their long-term durability and public safety.
- 39. The organization has published a c_____e guide to effective study techniques that mainly focus on the concepts of metacognition and are intended to help students cultivate independent learning skills and critical thinking.
- 40. The controversial advertisement p_____ed severe criticism from social media users for promoting unrealistic beauty standards and reinforcing gender stereotypes that distort people's perception of confidence and self-worth.

41. The handmade chocolate brand is only available in limited quantities each month due to its complex production process and the high-quality ingredients that must be imported from several European countries.
42. People with lactose intolerance are allergic to the natural sugar found in milk and other dairy products, which often causes bloating and stomach pain.

七、中譯英 (每題4分，共8分) (依據括號中的提示作答，否則不予計分)

43. 進口車的平均價格是國產車的三倍，因為前者包含更高的生產成本和運費。(… the price of …)

44. 長期過著充滿壓力的生活的人面臨著更高罹患高血壓與心臟相關問題的風險。(畫線處以複合形容詞作答)
